

FlashBack-2 RECHARGEABLE

FlashBack-2 Internal Battery Upgrade

- Built-in rechargeable battery providing 2-3 hours of record time.
- Compact and rugged real-time MPEG-2 video and audio recorder.
- Records to single or dual Compact Flash memory card playable on a PC/laptop
- Stereo line and mic level audio recording.
- Same benefits of FlashBack-2 with the addition of internal rechargeable battery.

FlashBack-2 Rechargeable offers the same benefits of FlashBack-2 with the addition of a internal rechargeable battery providing up to 2-3 hours of record time. FlashBack-2 Rechargeable is ideal for rapid deployment and short-term surveillance.

The battery is located in an extended base plate, adding 8mm to the height of the unit. The battery upgrade is available as an option with the Single, Dual and USB versions of the FlashBack-2 DVR.

Charging

The battery is automatically charged when DC is applied to the unit. 3 LEDs show the charging battery status. (See overleaf)

For more information, please refer to the standard FlashBack-2 brochure.

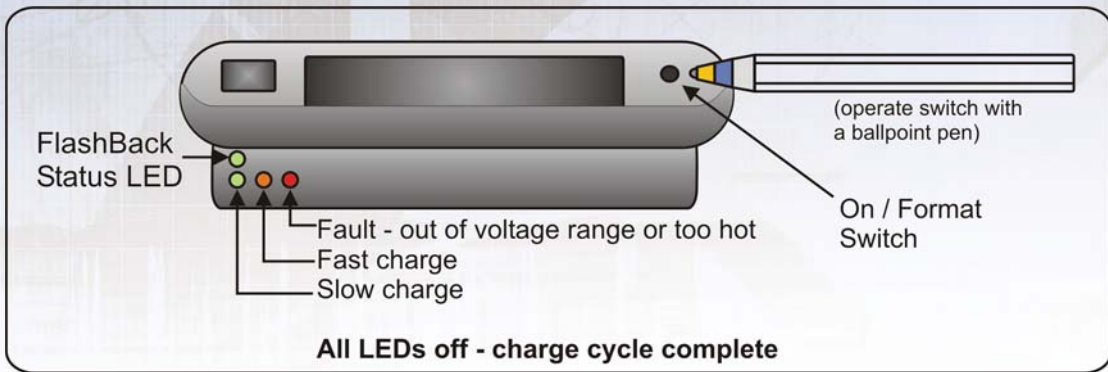

FlashBack-2 Rechargeable Side View

FlashBack-2 RECHARGEABLE

The battery is located in the extended base plate at the bottom of the FlashBack-2 unit. (See figure below).

FlashBack-2 with internal battery option

Product Code	Description
FB2B-5388	FlashBack-2 Internal Battery Upgrade for Single, Dual and USB versions of FlashBack-2
