Tilt speed	min. 2°/sec., max. 7°/sec.
Control Options	Analogue (RC Mini v2) RS-232/485 Visca & Pelco protocols
Power	8 ~ 12 VDC
P/T Dimensions	60mm x 50mm x 60mm
Base Dimensions	Ø90mm x 17mm

The Mini-PTR is the larger variation of the μ PTR allowing it to accommodate larger AF zoom camera blocks or cameras with interchangeable lenses while providing full 360° horizontal pan rotation, and maintaining front pivot tilt from 0° to -45°.

Anchored to a compact 90mm. diameter cylindrical base, the Mini-PTR enables 360° rotation without impacting cabling integrity.

Still maintaining a small footprint and versatile in its design, the Mini-PTR is well suited to a variety of camera and lens configurations making it very accommodating for a variety of mid to long range surveillance applications.
