ABOUT RAM MOUNT

RAM is the revolutionary universal ball and socket mounting SYSTEM that allows you to mount practically anything anywhere. Unlike other mounts on the market, RAM allows you to mount items where you need them most. Whether its in an aircraft, automobile, boat, ATV, truck, snowmobile, farming vehicle, motorcycle, fork lift or any other situation, RAM's family of more than 900 interchangeable accessories will offer you solutions to your most challenging mounting problems. If you need to mount a GPS, laptop, pda, pocket pc, radar, camera, light, computer, cellular phone, speaker, mirror, antenna, or just about anything else look no further. RAM mounts will help you make a professional job easy and affordable. Its unique design provides easy installation, mobility, strength, versatility, vibration protection and durability, all at a low cost. RAM is backed by NPIs renowned Lifetime Warranty which makes it the mounting SYSTEM of choice. To provide light weight strength and corrosion resistance, RAM is made of marine grade aluminum with a powder coated finish, stainless steel hardware and rubber balls. Recognized and accepted by the U.S. Patent Office, RAM is the only universal ball-and-socket SYSTEM that holds tremendous amounts of weight in high vibration applications for military, commercial and private use. Look further into our web site and see the newest products and learn more about this revolutionary mounting SYSTEM that is quickly becoming the industry standard. Remember when faced with a difficult mounting situation, Just RAM It!

ABOUT NATIONAL PRODUCTS, INC.

NPI stands for National Products Inc. Founded by Jeff Carnevali in 1994, NPI is the parent company of both RAM Mounting SYSTEMs and PRO PULL Prop Pulling Tools. Located in Seattle Washington, NPI distributes products around the globe. Providing some of the most innovative and durable products available, NPI has rapidly become an industry leader and continues to gain respect from both electronics manufacturers and those needing the finest tools for marine use. Having an in-house design staff and rapid prototyping abilities, NPI is able to quickly engineer and produce quality items for the ever changing electronics market. With rubber injection, sand casting, metal fabrication, and plastic injection molding as well as a die casting facility within one half mile of each other, coordinating and developing new products is trouble-free.

With a multitude of patented products and a dedicated staff, you can be sure that NPI will continue to provide products and support to the industries and customers that have made NPI a huge success.

RAM Prefix Code

To provide lightweight strength and corrosion resistance, RAM is made of marine grade aluminum with a black powder coated finish, stainless steel hardware and rubber balls. The standard mount bases include a yoke mount, round base, rubber suction cup and U-bolt handlebar for attaching electronic and GPS devices. Other configurations can be considered for laptop SYSTEM's in vehicles and marine uses.

Recognized and accepted by the U.S. Patent Office, RAM is the only universal ball-and-socket SYSTEM that holds tremendous amounts of weight in high vibration applications for military, commercial and private use.

RAM Prefix Code - continue

Many of these parts are available in plastic, mount part number has the prefix code RAP. The plastic components include both single and double socket arm assemblies with the same patented rubber ball and socket technology. The octagon button SYSTEM works with the Quick Snap Belt Clip Holder, Quick Snap Surface. The new Snap Flex Link SYSTEM is a male to female snap together configuration that has screws to tension the joint. The RAM Rail Mounts for handle bars and railings with a 1" rubber ball and or diamond base for adaptation to any other diamond base SYSTEM. Then again, the possible mounting solutions are endless, affordable and backed by the NPI Lifetime Warranty. The standard colour is black with the exception of the suction cups that are clear. Remember when faced with a difficult mounting situation, Just RAM It!

Simplicity without sacrificing function is the ultimate goal that design engineers strive for. WITHOUT only eight components, the unique design of the RAM mount SYSTEM has set a new standard for ball and socket arm technology.

RAM Ball Sizes

RAM Balls are injection molded onto a marine grade aluminum post. The materials used to make the balls and/or posts may be varied to provide characteristics required for most applications.

A Size Ball	0.56" Diameter Ball
B Size Ball	1" Diameter ball
C Size Ball	1.5" Diameter Ball
D Size Ball	2.25" Diameter Ball
E Size Ball	3.37" Diameter Ball

RAM Cradles and Holders

The RAM range has custom formed cradles and holders suitable for many electronic, PDA and GPS devices as will become apparent as you tour around our web site. Where applicable, we shall show the cradle with a selection of standard mounts to ease the selection process and choice. However, for the more adventurous user wishing to build a customized mount SYSTEM, then by selecting mating parts, you can achieve your own solution.

Getting It Right

When ordering a RAM mount SYSTEM or additional components, it's important that you understand the part number SYSTEM. To help you understand the part number format used, we are providing the following example. It is four different sizes of a basic RAM mounting SYSTEM including the corresponding arm, round base with ball.

RAM-A-102 & RAM-A-238	0.56" Diameter Ball
RAM-B-101 & RAM-B-202	1" Diameter ball
RAM-101 & RAM-202	1.5" Diameter Ball
RAM-D-101 & RAM-D-202	2.25" Diameter Ball
RAM-E-101 & RAM-E-202	3.37" Diameter Ball

Note: The C size 1.5" ball does not have a letter C following the RAM- prefix code, while all other sizes do require a letter.

Important: Be careful to make sure you have the letter in the proper location of the part number so you order the correct size SYSTEM or component. If in any doubt, please contact us.

For guidance only:

- B size 1" ball mount for units up to 2.25kg weight (approx 5 lbs)
- C size 1.5" ball mount for units up to 4.5kg weight (approx 10 lbs)
- D size 2.25" ball mount for units up to 6.75kg weight (approx 15 lbs)

ABOUT RAM MOUNT

RAM is the revolutionary universal ball and socket mounting SYSTEM that allows you to mount practically anything anywhere. Unlike other mounts on the market, RAM allows you to mount items where you need them most. Whether its in an aircraft, automobile, boat, ATV, truck, snowmobile, farming vehicle, motorcycle, fork lift or any other situation, RAM's family of more than 900 interchangeable accessories will offer you solutions to your most challenging mounting problems. If you need to mount a GPS, laptop, pda, pocket pc, radar, camera, light, computer, cellular phone, speaker, mirror, antenna, or just about anything else look no further. RAM mounts will help you make a professional job easy and affordable. Its unique design provides easy installation, mobility, strength, versatility, vibration protection and durability, all at a low cost. RAM is backed by NPIs renowned Lifetime Warranty which makes it the mounting SYSTEM of choice. To provide light weight strength and corrosion resistance, RAM is made of marine grade aluminum with a powder coated finish, stainless steel hardware and rubber balls. Recognized and accepted by the U.S. Patent Office, RAM is the only universal ball-and-socket SYSTEM that holds tremendous amounts of weight in high vibration applications for military, commercial and private use. Look further into our web site and see the newest products and learn more about this revolutionary mounting SYSTEM that is quickly becoming the industry standard. Remember when faced with a difficult mounting situation, Just RAM It!

ABOUT NATIONAL PRODUCTS, INC.

NPI stands for National Products Inc. Founded by Jeff Carnevali in 1994, NPI is the parent company of both RAM Mounting SYSTEMs and PRO PULL Prop Pulling Tools. Located in Seattle Washington, NPI distributes products around the globe. Providing some of the most innovative and durable products available, NPI has rapidly become an industry leader and continues to gain respect from both electronics manufacturers and those needing the finest tools for marine use. Having an in-house design staff and rapid prototyping abilities, NPI is able to quickly engineer and produce quality items for the ever changing electronics market. With rubber injection, sand casting, metal fabrication, and plastic injection molding as well as a die casting facility within one half mile of each other, coordinating and developing new products is trouble-free.

With a multitude of patented products and a dedicated staff, you can be sure that NPI will continue to provide products and support to the industries and customers that have made NPI a huge success.

RAM MOUNT GLOSSARY OF TERMS

The glossary of terms page is intended to provide you with definitions for custom words, directly used and related to the RAM website.

Ball size reference, letter preceding number:

RAM	Mount or base of aluminum construction
RAP	Mount or base of plastic construction
SB	When included in RAP part numbers, this stands for "snap link"
RAP-SB-XXX	Snap link base or SYSTEM, hard plastic ball and socket, not rubber
RAP-B-XXX	Accommodates or has B size ball
RAM-A-XXX	0.56" diameter rubber ball mount or component
RAM-B-XXX	1" diameter rubber ball mount or component
RAM-XXX	1.5" diameter rubber ball mount or component
RAM-D-XXX	2.25" diameter rubber ball mount kit or component
RAM-E-XXX	3.37" diameter rubber ball mount kit or component

Arm length reference, letter after number:

RAM-A-XXX-B	A size ball, B length arm or SYSTEM
RAM-B-XXX-A	B size ball, A length arm or SYSTEM
RAM-B-XXX	B size ball, standard length arm or SYSTEM
RAM-B-XXX-C	B size ball, C length arm or SYSTEM
RAM-XXX-B	C size ball, B length arm or SYSTEM
RAM-XXX-D	C size ball, D length arm or SYSTEM
RAM-D-XXX	D size ball, D length arm or SYSTEM
RAM-D-XXX-C	D size ball, C length arm or SYSTEM
RAM-D-XXX-E	D size ball, E length arm or SYSTEM
RAM-E-XXX	E size ball, E length arm or SYSTEM
RAM-E-XXX-D	E size ball, D length arm or SYSTEM

RAM Double Socket Arm Lengths:

RAM-B-201-A	2 7/16"	1 3/4"
RAM-B-201	3 11/16"	2 7/8"
RAM-B-201-C	6"	5 3/16"
RAM-201-B	3 1/2"	2 1/4"
RAM-201	5 5/8"	4 1/2"
RAM-201-D	9 1/8"	8 3/4"
RAM-D-201-C	5 1/16"	3 3/16"
RAM-D-201	8 3/8"	6 9/16"
RAM-D-201-E	12 7/8"	11 3/16"
RAM-E-201-D	7 1/4"	4 3/8"
RAM-E-201	12 5/8"	9 7/8"

RAM Prefix Code

To provide lightweight strength and corrosion resistance, RAM is made of marine grade aluminum with a black powder coated finish, stainless steel hardware and rubber balls. The standard mount bases include a yoke mount, round base, rubber suction cup and U-bolt handlebar for attaching electronic and GPS devices. Other configurations can be considered for laptop SYSTEM's in vehicles and marine uses.

Recognized and accepted by the U.S. Patent Office, RAM is the only universal ball-and-socket SYSTEM that holds tremendous amounts of weight in high vibration applications for military, commercial and private use.

RAM Prefix Code - continue

Many of these parts are available in plastic, mount part number has the prefix code RAP. The plastic components include both single and double socket arm assemblies with the same patented rubber ball and socket technology. The octagon button SYSTEM works with the Quick Snap Belt Clip Holder, Quick Snap Surface. The new Snap Flex Link SYSTEM is a male to female snap together configuration that has screws to tension the joint. The RAM Rail Mounts for handle bars and railings with a 1" rubber ball and or diamond base for adaptation to any other diamond base SYSTEM. Then again, the possible mounting solutions are endless, affordable and backed by the NPI Lifetime Warranty. The standard colour is black with the exception of the suction cups that are clear. Remember when faced with a difficult mounting situation, Just RAM It!

Simplicity without sacrificing function is the ultimate goal that design engineers strive for. WITHOUT only eight components, the unique design of the RAM mount SYSTEM has set a new standard for ball and socket arm technology.

RAM Ball Sizes

RAM Balls are injection molded onto a marine grade aluminum post. The materials used to make the balls and/or posts may be varied to provide characteristics required for most applications.

A Size Ball	0.56" Diameter Ball
B Size Ball	1" Diameter ball
C Size Ball	1.5" Diameter Ball
D Size Ball	2.25" Diameter Ball
E Size Ball	3.37" Diameter Ball

RAM-A-238
A Size Ball
0.56" Diameter

RAM-B-202
B Size Ball
1" Diameter

RAM-202
C Size Ball
1.5" Diameter

RAM-D-202
D Size Ball
2.25" Diameter

RAM-E-202
E Size Ball

RAM Cradles and Holders

The RAM range has custom formed cradles and holders suitable for many electronic, PDA and GPS devices as will become apparent as you tour around our web site. Where applicable, we shall show the cradle with a selection of standard mounts to ease the selection process and choice. However, for the more adventurous user wishing to build a customized mount SYSTEM, then by selecting mating parts, you can achieve your own solution.

Getting It Right

When ordering a RAM mount SYSTEM or additional components, it's important that you understand the part number SYSTEM. To help you understand the part number format used, we are providing the following example. It is four different sizes of a basic RAM mounting SYSTEM including the corresponding arm, round base with ball.

RAM-A-102 & RAM-A-238	0.56" Diameter Ball
RAM-B-101 & RAM-B-202	1" Diameter ball
RAM-101 & RAM-202	1.5" Diameter Ball
RAM-D-101 & RAM-D-202	2.25" Diameter Ball
RAM-E-101 & RAM-E-202	3.37" Diameter Ball

Note: The C size 1.5" ball does not have a letter C following the RAM- prefix code, while all other sizes do require a letter.

Important: Be careful to make sure you have the letter in the proper location of the part number so you order the correct size SYSTEM or component. If in any doubt, please contact us.

For guidance only:

- B size 1" ball mount for units up to 2.25kg weight (approx 5 lbs)
- C size 1.5" ball mount for units up to 4.5kg weight (approx 10 lbs)
- D size 2.25" ball mount for units up to 6.75kg weight (approx 15 lbs)

ABOUT RAM MOUNT

RAM is the revolutionary universal ball and socket mounting SYSTEM that allows you to mount practically anything anywhere. Unlike other mounts on the market, RAM allows you to mount items where you need them most. Whether its in an aircraft, automobile, boat, ATV, truck, snowmobile, farming vehicle, motorcycle, fork lift or any other situation, RAM's family of more than 900 interchangeable accessories will offer you solutions to your most challenging mounting problems. If you need to mount a GPS, laptop, pda, pocket pc, radar, camera, light, computer, cellular phone, speaker, mirror, antenna, or just about anything else look no further. RAM mounts will help you make a professional job easy and affordable. Its unique design provides easy installation, mobility, strength, versatility, vibration protection and durability, all at a low cost. RAM is backed by NPIs renowned Lifetime Warranty which makes it the mounting SYSTEM of choice. To provide light weight strength and corrosion resistance, RAM is made of marine grade aluminum with a powder coated finish, stainless steel hardware and rubber balls. Recognized and accepted by the U.S. Patent Office, RAM is the only universal ball-and-socket SYSTEM that holds tremendous amounts of weight in high vibration applications for military, commercial and private use. Look further into our web site and see the newest products and learn more about this revolutionary mounting SYSTEM that is quickly becoming the industry standard. Remember when faced with a difficult mounting situation, Just RAM It!

ABOUT NATIONAL PRODUCTS, INC.

NPI stands for National Products Inc. Founded by Jeff Carnevali in 1994, NPI is the parent company of both RAM Mounting SYSTEMs and PRO PULL Prop Pulling Tools. Located in Seattle Washington, NPI distributes products around the globe. Providing some of the most innovative and durable products available, NPI has rapidly become an industry leader and continues to gain respect from both electronics manufacturers and those needing the finest tools for marine use. Having an in-house design staff and rapid prototyping abilities, NPI is able to quickly engineer and produce quality items for the ever changing electronics market. With rubber injection, sand casting, metal fabrication, and plastic injection molding as well as a die casting facility within one half mile of each other, coordinating and developing new products is trouble-free.

With a multitude of patented products and a dedicated staff, you can be sure that NPI will continue to provide products and support to the industries and customers that have made NPI a huge success.

RAM MOUNT GLOSSARY OF TERMS

The glossary of terms page is intended to provide you with definitions for custom words, directly used and related to the RAM website.

Ball size reference, letter preceding number:

RAM	Mount or base of aluminum construction
RAP	Mount or base of plastic construction
SB	When included in RAP part numbers, this stands for "snap link"
RAP-SB-XXX	Snap link base or SYSTEM, hard plastic ball and socket, not rubber
RAP-B-XXX	Accommodates or has B size ball
RAM-A-XXX	0.56" diameter rubber ball mount or component
RAM-B-XXX	1" diameter rubber ball mount or component
RAM-XXX	1.5" diameter rubber ball mount or component
RAM-D-XXX	2.25" diameter rubber ball mount kit or component
RAM-E-XXX	3.37" diameter rubber ball mount kit or component

Arm length reference, letter after number:

RAM-A-XXX-B	A size ball, B length arm or SYSTEM
RAM-B-XXX-A	B size ball, A length arm or SYSTEM
RAM-B-XXX	B size ball, standard length arm or SYSTEM
RAM-B-XXX-C	B size ball, C length arm or SYSTEM
RAM-XXX-B	C size ball, B length arm or SYSTEM
RAM-XXX-D	C size ball, D length arm or SYSTEM
RAM-D-XXX	D size ball, D length arm or SYSTEM
RAM-D-XXX-C	D size ball, C length arm or SYSTEM
RAM-D-XXX-E	D size ball, E length arm or SYSTEM
RAM-E-XXX	E size ball, E length arm or SYSTEM
RAM-E-XXX-D	E size ball, D length arm or SYSTEM

RAM Double Socket Arm Lengths:

RAM-B-201-A	2 7/16"	1 3/4"
RAM-B-201	3 11/16"	2 7/8"
RAM-B-201-C	6"	5 3/16"
RAM-201-B	3 1/2"	2 1/4"
RAM-201	5 5/8"	4 1/2"
RAM-201-D	9 1/8"	8 3/4"
RAM-D-201-C	5 1/16"	3 3/16"
RAM-D-201	8 3/8"	6 9/16"
RAM-D-201-E	12 7/8"	11 3/16"
RAM-E-201-D	7 1/4"	4 3/8"
RAM-E-201	12 5/8"	9 7/8"

RAM Prefix Code

To provide lightweight strength and corrosion resistance, RAM is made of marine grade aluminum with a black powder coated finish, stainless steel hardware and rubber balls. The standard mount bases include a yoke mount, round base, rubber suction cup and U-bolt handlebar for attaching electronic and GPS devices. Other configurations can be considered for laptop SYSTEM's in vehicles and marine uses.

Recognized and accepted by the U.S. Patent Office, RAM is the only universal ball-and-socket SYSTEM that holds tremendous amounts of weight in high vibration applications for military, commercial and private use.

RAM Prefix Code - continue

Many of these parts are available in plastic, mount part number has the prefix code RAP. The plastic components include both single and double socket arm assemblies with the same patented rubber ball and socket technology. The octagon button SYSTEM works with the Quick Snap Belt Clip Holder, Quick Snap Surface. The new Snap Flex Link SYSTEM is a male to female snap together configuration that has screws to tension the joint. The RAM Rail Mounts for handle bars and railings with a 1" rubber ball and or diamond base for adaptation to any other diamond base SYSTEM. Then again, the possible mounting solutions are endless, affordable and backed by the NPI Lifetime Warranty. The standard colour is black with the exception of the suction cups that are clear. Remember when faced with a difficult mounting situation, Just RAM It!

Simplicity without sacrificing function is the ultimate goal that design engineers strive for. WITHOUT only eight components, the unique design of the RAM mount SYSTEM has set a new standard for ball and socket arm technology.

RAM Ball Sizes

RAM Balls are injection molded onto a marine grade aluminum post. The materials used to make the balls and/or posts may be varied to provide characteristics required for most applications.

A Size Ball	0.56" Diameter Ball
B Size Ball	1" Diameter ball
C Size Ball	1.5" Diameter Ball
D Size Ball	2.25" Diameter Ball
E Size Ball	3.37" Diameter Ball

RAM-A-238
A Size Ball
0.56" Diameter

RAM-B-202
B Size Ball
1" Diameter

RAM-202
C Size Ball
1.5" Diameter

RAM-D-202
D Size Ball
2.25" Diameter

RAM-E-202
E Size Ball

RAM Cradles and Holders

The RAM range has custom formed cradles and holders suitable for many electronic, PDA and GPS devices as will become apparent as you tour around our web site. Where applicable, we shall show the cradle with a selection of standard mounts to ease the selection process and choice. However, for the more adventurous user wishing to build a customized mount SYSTEM, then by selecting mating parts, you can achieve your own solution.

Getting It Right

When ordering a RAM mount SYSTEM or additional components, it's important that you understand the part number SYSTEM. To help you understand the part number format used, we are providing the following example. It is four different sizes of a basic RAM mounting SYSTEM including the corresponding arm, round base with ball.

RAM-A-102 & RAM-A-238	0.56" Diameter Ball
RAM-B-101 & RAM-B-202	1" Diameter ball
RAM-101 & RAM-202	1.5" Diameter Ball
RAM-D-101 & RAM-D-202	2.25" Diameter Ball
RAM-E-101 & RAM-E-202	3.37" Diameter Ball

Note: The C size 1.5" ball does not have a letter C following the RAM- prefix code, while all other sizes do require a letter.

Important: Be careful to make sure you have the letter in the proper location of the part number so you order the correct size SYSTEM or component. If in any doubt, please contact us.

For guidance only:

- B size 1" ball mount for units up to 2.25kg weight (approx 5 lbs)
- C size 1.5" ball mount for units up to 4.5kg weight (approx 10 lbs)
- D size 2.25" ball mount for units up to 6.75kg weight (approx 15 lbs)

ABOUT RAM MOUNT

RAM is the revolutionary universal ball and socket mounting SYSTEM that allows you to mount practically anything anywhere. Unlike other mounts on the market, RAM allows you to mount items where you need them most. Whether its in an aircraft, automobile, boat, ATV, truck, snowmobile, farming vehicle, motorcycle, fork lift or any other situation, RAM's family of more than 900 interchangeable accessories will offer you solutions to your most challenging mounting problems. If you need to mount a GPS, laptop, pda, pocket pc, radar, camera, light, computer, cellular phone, speaker, mirror, antenna, or just about anything else look no further. RAM mounts will help you make a professional job easy and affordable. Its unique design provides easy installation, mobility, strength, versatility, vibration protection and durability, all at a low cost. RAM is backed by NPIs renowned Lifetime Warranty which makes it the mounting SYSTEM of choice. To provide light weight strength and corrosion resistance, RAM is made of marine grade aluminum with a powder coated finish, stainless steel hardware and rubber balls. Recognized and accepted by the U.S. Patent Office, RAM is the only universal ball-and-socket SYSTEM that holds tremendous amounts of weight in high vibration applications for military, commercial and private use. Look further into our web site and see the newest products and learn more about this revolutionary mounting SYSTEM that is quickly becoming the industry standard. Remember when faced with a difficult mounting situation, Just RAM It!

ABOUT NATIONAL PRODUCTS, INC.

NPI stands for National Products Inc. Founded by Jeff Carnevali in 1994, NPI is the parent company of both RAM Mounting SYSTEMs and PRO PULL Prop Pulling Tools. Located in Seattle Washington, NPI distributes products around the globe. Providing some of the most innovative and durable products available, NPI has rapidly become an industry leader and continues to gain respect from both electronics manufacturers and those needing the finest tools for marine use. Having an in-house design staff and rapid prototyping abilities, NPI is able to quickly engineer and produce quality items for the ever changing electronics market. With rubber injection, sand casting, metal fabrication, and plastic injection molding as well as a die casting facility within one half mile of each other, coordinating and developing new products is trouble-free.

With a multitude of patented products and a dedicated staff, you can be sure that NPI will continue to provide products and support to the industries and customers that have made NPI a huge success.

ABOUT RAM MOUNT

RAM is the revolutionary universal ball and socket mounting SYSTEM that allows you to mount practically anything anywhere. Unlike other mounts on the market, RAM allows you to mount items where you need them most. Whether its in an aircraft, automobile, boat, ATV, truck, snowmobile, farming vehicle, motorcycle, fork lift or any other situation, RAM's family of more than 900 interchangeable accessories will offer you solutions to your most challenging mounting problems. If you need to mount a GPS, laptop, pda, pocket pc, radar, camera, light, computer, cellular phone, speaker, mirror, antenna, or just about anything else look no further. RAM mounts will help you make a professional job easy and affordable. Its unique design provides easy installation, mobility, strength, versatility, vibration protection and durability, all at a low cost. RAM is backed by NPIs renowned Lifetime Warranty which makes it the mounting SYSTEM of choice. To provide light weight strength and corrosion resistance, RAM is made of marine grade aluminum with a powder coated finish, stainless steel hardware and rubber balls. Recognized and accepted by the U.S. Patent Office, RAM is the only universal ball-and-socket SYSTEM that holds tremendous amounts of weight in high vibration applications for military, commercial and private use. Look further into our web site and see the newest products and learn more about this revolutionary mounting SYSTEM that is quickly becoming the industry standard. Remember when faced with a difficult mounting situation, Just RAM It!

ABOUT NATIONAL PRODUCTS, INC.

NPI stands for National Products Inc. Founded by Jeff Carnevali in 1994, NPI is the parent company of both RAM Mounting SYSTEMs and PRO PULL Prop Pulling Tools. Located in Seattle Washington, NPI distributes products around the globe. Providing some of the most innovative and durable products available, NPI has rapidly become an industry leader and continues to gain respect from both electronics manufacturers and those needing the finest tools for marine use. Having an in-house design staff and rapid prototyping abilities, NPI is able to quickly engineer and produce quality items for the ever changing electronics market. With rubber injection, sand casting, metal fabrication, and plastic injection molding as well as a die casting facility within one half mile of each other, coordinating and developing new products is trouble-free.

With a multitude of patented products and a dedicated staff, you can be sure that NPI will continue to provide products and support to the industries and customers that have made NPI a huge success.

RAM Prefix Code

To provide lightweight strength and corrosion resistance, RAM is made of marine grade aluminum with a black powder coated finish, stainless steel hardware and rubber balls. The standard mount bases include a yoke mount, round base, rubber suction cup and U-bolt handlebar for attaching electronic and GPS devices. Other configurations can be considered for laptop SYSTEM's in vehicles and marine uses.

Recognized and accepted by the U.S. Patent Office, RAM is the only universal ball-and-socket SYSTEM that holds tremendous amounts of weight in high vibration applications for military, commercial and private use.

RAM Prefix Code - continue

Many of these parts are available in plastic, mount part number has the prefix code RAP. The plastic components include both single and double socket arm assemblies with the same patented rubber ball and socket technology. The octagon button SYSTEM works with the Quick Snap Belt Clip Holder, Quick Snap Surface. The new Snap Flex Link SYSTEM is a male to female snap together configuration that has screws to tension the joint. The RAM Rail Mounts for handle bars and railings with a 1" rubber ball and or diamond base for adaptation to any other diamond base SYSTEM. Then again, the possible mounting solutions are endless, affordable and backed by the NPI Lifetime Warranty. The standard colour is black with the exception of the suction cups that are clear. Remember when faced with a difficult mounting situation, Just RAM It!

Simplicity without sacrificing function is the ultimate goal that design engineers strive for. WITHOUT only eight components, the unique design of the RAM mount SYSTEM has set a new standard for ball and socket arm technology.

RAM Ball Sizes

RAM Balls are injection molded onto a marine grade aluminum post. The materials used to make the balls and/or posts may be varied to provide characteristics required for most applications.

A Size Ball	0.56" Diameter Ball
B Size Ball	1" Diameter ball
C Size Ball	1.5" Diameter Ball
D Size Ball	2.25" Diameter Ball
E Size Ball	3.37" Diameter Ball

RAM-A-238
A Size Ball
0.56" Diameter

RAM-B-202
B Size Ball
1" Diameter

RAM-202
C Size Ball
1.5" Diameter

RAM-D-202
D Size Ball
2.25" Diameter

RAM-E-202
E Size Ball
3.37" Diameter

RAM Cradles and Holders

The RAM range has custom formed cradles and holders suitable for many electronic, PDA and GPS devices as will become apparent as you tour around our web site. Where applicable, we shall show the cradle with a selection of standard mounts to ease the selection process and choice. However, for the more adventurous user wishing to build a customized mount SYSTEM, then by selecting mating parts, you can achieve your own solution.

Getting It Right

When ordering a RAM mount SYSTEM or additional components, it's important that you understand the part number SYSTEM. To help you understand the part number format used, we are providing the following example. It is four different sizes of a basic RAM mounting SYSTEM including the corresponding arm, round base with ball.

RAM-A-102 & RAM-A-238	0.56" Diameter Ball
RAM-B-101 & RAM-B-202	1" Diameter ball
RAM-101 & RAM-202	1.5" Diameter Ball
RAM-D-101 & RAM-D-202	2.25" Diameter Ball
RAM-E-101 & RAM-E-202	3.37" Diameter Ball

Note: The C size 1.5" ball does not have a letter C following the RAM- prefix code, while all other sizes do require a letter.

Important: Be careful to make sure you have the letter in the proper location of the part number so you order the correct size SYSTEM or component. If in any doubt, please contact us.

For guidance only:

- B size 1" ball mount for units up to 2.25kg weight (approx 5 lbs)
- C size 1.5" ball mount for units up to 4.5kg weight (approx 10 lbs)
- D size 2.25" ball mount for units up to 6.75kg weight (approx 15 lbs)
